

Premium Quality Wiper Blades

Borg & Beck, the brand with 100 years of heritage has available a comprehensive range of premium quality Wiper Blades, including Conventional, Spoiler, Flat, Hybrid and Rear.

All Borg & Beck Wiper Blades are made using high grade long lasting natural rubber for a clean and silent operation. They utilise a liquid graphite coating for optimum performance and longevity, so you can be sure that when choosing to fit Borg & Beck Wiper Blades you will get the quality that is synonymous across the whole brand.

STANDARD / CONVENTIONAL BLADES

Largely connected by using the hook type fitting, these blades offer a quick and simple replacement at a very competitive price and long lasting durability.

- > Available for sizes 11"-28" (exc. 12")
- > Zinc galvanised steel frame
- > Long lasting natural rubber
- > Liquid graphite coating for enhanced performance

SPOILER BLADES

Fitted mainly on the drivers side, Spoiler Blades offer that extra contact with the screen especially at motorway speeds ensuring excellent visibility.

- > Available for sizes 18"-28" (Exc. 23", 25", 27")
- > Zinc galvanised steel frame
- > Long lasting natural rubber
- > Liquid graphite coating for enhanced performance
- > Spoiler ensures optimum screen contact

FLAT BLADES

Available to replace not only originally fitted Flat Blades but also Conventional or Hybrid style Blades too. A complete set of adaptors are included in every box to ensure that you have the correct fitting whether it's Side Pin, Bayonet, Pinch Tab, Push Button and Slider, Borg & Beck caters for all.

- > Available for sizes 15"-30" (Exc. 25", 27", 29")
- > Multi-function mounting base and clips for ease of fitment
- > Long lasting natural rubber for a clean and silent operation
- > Liquid graphite coating for optimum performance and longevity
- > Unique design with flatter spoiler minimises drag

HYBRID BLADES

Combining the aerodynamic properties of the Flat Blade and the reliable wiping performance of a traditional Conventional Blade, this design has become the choice blade for many, whether that's as a direct replacement or to replace the conventional or Flat Blades that were fitted as standard. Borg & Beck Hybrid Blades are supplied with a complete set of adaptors for quick and easy application.

- > Available for sizes 16"-28" (Exc. 25", 27")
- > Hybrid blade style to replace Conventional Blade
- > Aerodynamic low profile
- > Long lasting natural rubber for a clean and silent operation
- > Liquid graphite coating for optimum performance and longevity
- > Yoke construction for enhanced windscreen contact

REAR BLADES

Borg & Beck also offers a leading range of Rear Wiper Blades which feature a unique multifunctional mounting base and clips, to enable a direct replacement for Blades traditionally thought of as dealer only.

- > Available for sizes 8"-16" (Exc. 9", 13", 15")
- > Multifunctional mounting base and clips
- > High strength galvanised zinc steel frame with UV coating
- > Liquid graphite coating for optimum performance and longevity
