ALL INCLUSIVE AS STANDARD

Borg & Beck have 252 Ball Joints with nuts & bolts, more than any other competitor.

Plus, over 50 Arms have the necessary bolts included, that's more than double offered by our competitors.

EASE OF IDENTIFICATION

Borg & Beck layout diagrams for engine mountings enable accurate identification of the required part.

MATCHING OE DESIGN HYBRID LINK BARS

(Old design offered by competitors)

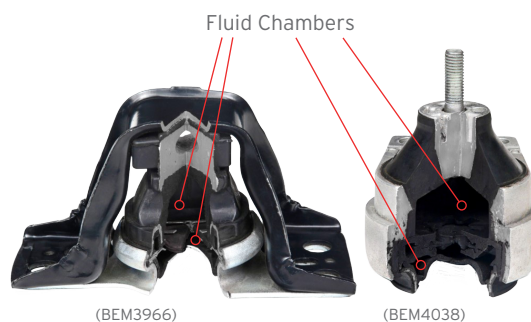

(BDL7441 - Latest OE Hybrid Design)

OE fit on later models such as 1 Series, 3 Series, MINI, A3 and Golf.

Weight-saving over the earlier conventional type.

Manufactured from high strength steel and carbon-fibre reinforced plastic (CFRP).

LATEST TECHNOLOGY OFFERED

Range includes rubber, hydraulic & electronically controlled Mountings to match the OE specification.

MARKET LEADING NEW TO RANGE 350 NEW REFERENCES ADDED IN 2016

BCA7329

Mercedes Vito
(W639) 2011>

BCA7330
